

Waterproof PH/TDS/Conductivity/ORP/SG/Temperature tester

KSC-600 is the latest multi-functional water quality tester developed in 2021, with 7 functions and one product for multiple uses. It can measure PH / TDS / EC / ORP / seawater specific gravity / temperature. The measurement range is large and wide, and can measure fresh water salinity and sea salt. It is suitable for home, swimming pool, drinking water, and amazing digital water quality monitor for aquarium. KERRO products walk with you to make life better.

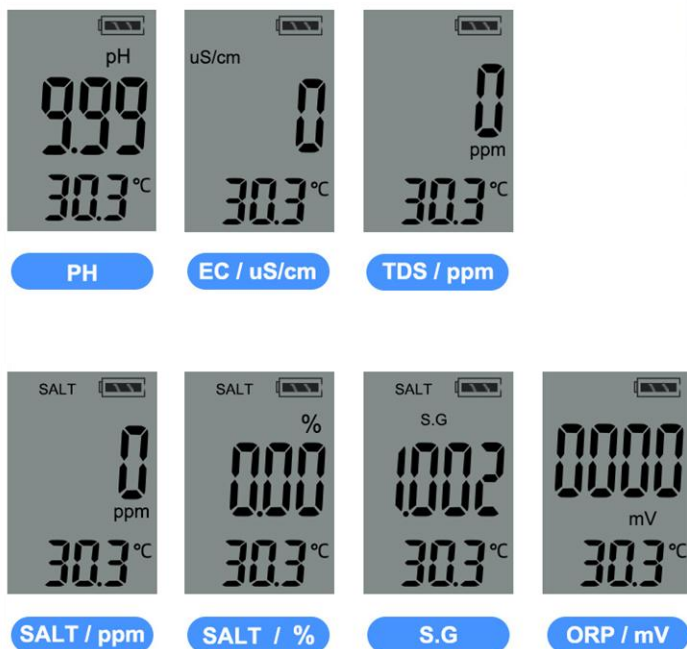

TECHNICAL SPECIFICATION

- Multi-parameters: pH, Conductivity, TDS, Temperature, Salinity, S.G, ORP
- Measurement Range-2~16.00 pH / 0~90 deg.C Temp.
- Measurement Range (cond./ TDS / Salt)0~200uS,2.00~20.00mS/0~1300ppm 1.30~13.00ppt /0~1000ppm,1.00~12.00ppt
- Accuracyd0.01pH / d0.2 C+1dg(temp.)/ d2%FS (Cond.TDS Salt)
- Calibration : pH: 4.00/ 7.00/ 10.01 / Cond: 0uS/ 1413uS/ 12.88mS

MULTIPLE FUNCTIONS / RANDOM SWITCHING

PH / EC / TDS / SALT / S.G / ORP / TEMP

Press the  button one button to switch

IP65

PROBE DETACHABLE DESIGN

Prevent accidental probe damage and increase replacement cost
Easy to change probes yourself
